How To Use The Dial Telephone

Obtain the correct telephone number from the directory. Remove the receiver carefully, listen for the dial tone. This is a steady humming sound heard in the receiver which indicates that the line is ready to receive the call. Upon hearing the dial tone, and with the receiver off the hook, dial each figure of the number wanted. For example: To call 2112 remove the receiver, listen for the dial tone and (1.) Place your finger firmly in the hole in the dial through which the number 2 is seen. (2.) Pull the dial around to the right until your finger strikes the finger stop. (3.) Remove your finger from the hole and without touching the dial let it return to rest. (4.) Proceed in the same way with the Figures 112 in the order they appear in the number.

Wait for the ringing or busy signal. Either the ringing or busy signal should be heard on the line within a few seconds. If after you have waited about one-half minute and have not heard either the ringing or busy signal hang up the receiver for a few seconds and dial again.

The ringing signal is a "burring sound" heard at intervals. If after hearing this signal repeated for about one minute and you obtain no answer hang up the receiver and call again when you expect to obtain an answer.

The busy signal is a steady "buzz-buzz-buzz sound." When you hear this signal hang up your receiver and call again later.

If you wish to make a second call immediately, hang up the receiver for a few seconds before attempting to make the second call.

If you make an error before you complete dialing, or if your finger slips out of the hole while dialing before you have pulled the dial around to the stop, hang up the receiver for a few seconds. Then take the receiver off; upon hearing the dial tone, dial the complete number again.

When your bell rings, answer it promptly, but do not remove the receiver from the hook when the bell is ringing. IF IT IS NECESSARY TO CALL SOMEONE ELSE TO THE TELEPHONE, KEEP THE RECEIVER OFF THE HOOK. As soon as your conversation is finished, hang up the receiver.

TIME CONVERSATION

All conversations are limited to a period of 6 to 8 minutes—1 minute prior to the expiration of the Time Limit—you will hear a "Audible Warning Signal" that is similar to a busy signal; which indicates the conversation may continue—but 1 minute longer, you will then be automatically disconnected at which time it will be necessary to place the receiver on the hook, this will free your telephone for further dialing.

Time Limit—does not apply to Long Distance.

To call a party on your line—Remove your receiver get the dial tone—dial the number of the party wanted—immediately you will hear the busy signal—then hold your receiver hook down—waiting long enough or until you count 8 slowly to permit the called telephone to ring a few times—release your receiver hook and wait for your party to answer—if your party does not answer—try again later.
